WOOD VENEER

BENTO

Designed for timelessness, Bento is an elegant collection that adds a touch of distinction to your office with its cutting-edge design, wood veneer finishes and versatile features.

Bento is a versatile collection that blends the traditional with the contemporary to create functional, aesthetic spaces to suit every organization's needs.

FILO

The perfect blend of quality, elegance and modern design—along with versatile and attractive finishes—projects a dynamic image, making Filo an ideal collection for private offices.

Blending style, functionality and versatility with beautifully matched veneer, FILO delivers an upscale, sophisticated solution that projects an image of success.

CONTEMPO

Contempo is a well-designed, contemporary collection that adapts to the way you work and creates the ideal environment for optimum decision-making and organizational growth.

The perfect combination of elegance and sophistication, Contempo's dynamic design incorporates detailed wood veneers with modern elements—metal and glass—to create a unique and stylish line that makes your office an enjoyable place to work.

FREESTANDING

PRIME

Based on modularity and versatility, Prime offers sophisticated style without compromising functionality.

The modular Prime collection offers a wide range of configurations. Ergonomic surfaces with laminated finishes and matching decorative edges let you create the optimum, productive work environment.

Prime's design incorporates organic shapes, dynamic flow, and a unique aesthetic that provides functionality and comfort.

G-CONNECT

Convey your organization's personality with G-Connect's wide range of configurations and functionality. A high capacity for voice, data and power wire management—coupled with laminated finishes or natural wood veneer in elegant tones—produces modern, functional workspaces.

FREESTANDING

The skillful integration of G-Connect's technology and functionality with its unique aesthetic results in office furniture that transcends trends. A design icon of unmatched character, this collection is ideal for today's distinct work styles.

KENZA

This collection of simple, straight lines adapts to any environment, creating warm work areas that optimize space.

A perfect combination of steel finishes and aesthetic laminates conveys a clean, modern and dynamic atmosphere.

FREESTANDING

URBAN

This collection incorporating simple, straight lines adapts to any environment, creating comfortable work areas that optimize space.

Urban's wire-management capabilities are discretely incorporated into its structure, resulting in a modern, ergonomic design with a unique style and dynamism ideal for emphasizing professional development.

CYBER

Cyber's ergonomic design offers a wide range of configurations to suit every user's needs.

Practical and easy to assemble—with hidden wire-management capabilities in its sturdy steel structure—the Cyber collection takes workspace functionality and productivity to new heights.

NOVA

Nova is a functional furniture collection made of steel for strength and durability in the high-productivity workplace.

CONCORD

The functional and durable Concord collection adapts to different work environments—ideal for those who seek practicality but also demand high performance in their daily work.

CONFERENCE

The integration of functionality, elegance, and freshness portrays a level of excellence, from an informal meeting to the most important decision-making session.

G-Connect conference tables are the perfect combination of modern design and functionality. The strategic integration of technology allows for adapting to new ways of working and the development of environments where great projects are created.

TRAINING

IKA

Ika is the answer to the changing needs of multifunctional areas—with the flexibility to adapt to myriad purposes, for any number of users, in just minutes.

RECEPTION

Gebesa's reception areas let you create modern, attractive welcome spaces in a wide range of configurations, designs and finishes to meet the space-planning needs and match the image of your organization.
