G-CONNECT

MODULAR

Furniture color may vary from renderings.

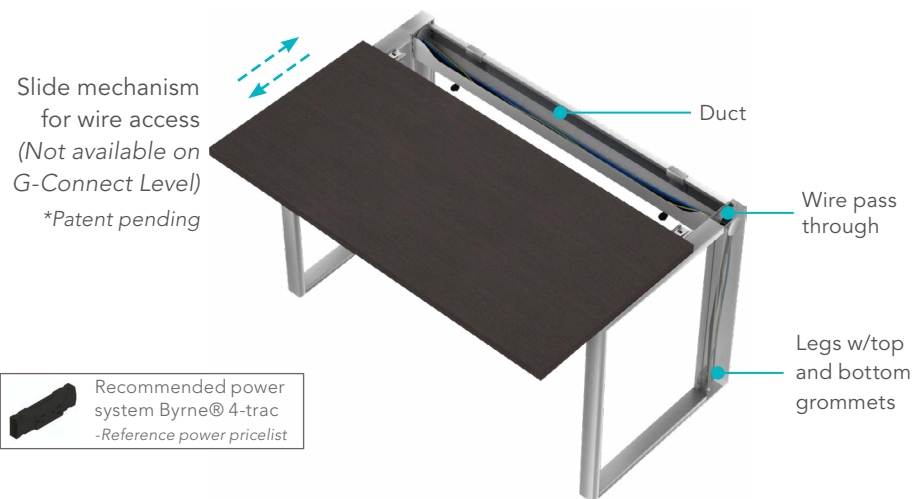

G-Connect offers infinite configuration possibilities to create dynamic and refined designs with functional and skillful integration of technology and style. With a clean, unique design, the G-Connect collection is ideal for today's work environment.

Furniture color may vary from renderings.

POWER AND DATA SYSTEM

With a smart and thoughtful design, the G-Connect Level collection adapts to your every need. With wire management, modern finishes and durable frame, G-Connect Level is a seamless fit for a collaborative work style.

Furniture color may vary from renderings.

DELTA LEG

Furniture color may vary from renderings.

With a contemporary design that breaks with everyday office life, the credenza desk with delta leg combines functionality, resistance, visual lightness, and elegance. Create the perfect setup with ample deck space, storage, and a distinctive aesthetic.

The contrast of asymmetric shapes creates a unique style, reinventing a category with the highest technology and offering new design alternatives that invite creativity and inspire a sense of modernity.

ASCEND

MODULAR

Furniture color may vary from renderings.

Maximizing style and efficiency, the Ascend collection balances health and productivity. Made for the modern lifestyle, Ascend is designed to create an optimal and customized, sit-stand office environment.

Furniture color may vary from renderings.

Ascend brings the ease of sit and stand to the focused and hard working. This affordable and easy-to-assemble collection brings height adjustability to everyone in the office.

- Allows straight, 90° and 120° connections in two-way, three-way and four-way configurations.
- Beam allows to add power and data options.
- "T" or "C" leg options.
- Two or three stages.
- The Ascend collection offers an ergonomic combination of height adjustability, benching, technology and storage solutions.
- You can add privacy screens, cable organizer, power and data, among others.

COVERING LEGS*

ENHANCED PRIVACY

We understand the importance of privacy in your workspace. Therefore, our new Ascend desk includes an elegant modesty panel that not only enhances the aesthetics of your office but also provides you with increased privacy.

DESIGN AND DENSITY

Every detail of the new Ascend desk has been carefully considered to offer you maximum functionality and style. The 2 covering legs not only provide robust support, but also ensure a new level of distinction.

**Only available in Low Pressure Laminates*

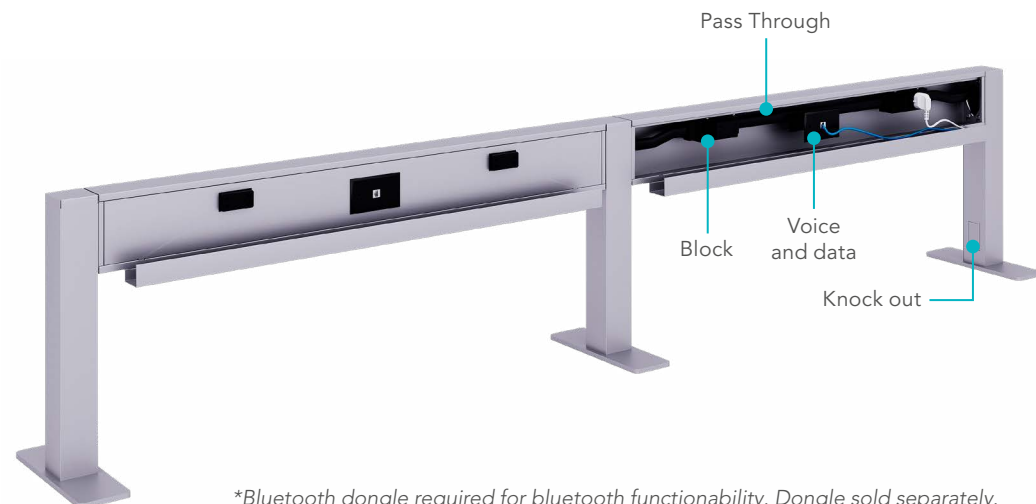

Choose between two modernized controls: our programmable control with memory position keys or our easy-to-use paddle control.

You can also control your workstation from our Gebesa Smart Office app.*

ASCEND BEAM

Ascend Beam provides efficient and adaptable power and data distribution. Applicable across all Ascend offerings, it allows you to connect in any configuration.

- It can be configured at 90° or 120° angles.
- Compatible with new and existing office workspaces.
- Hinged raceway to organize and hide cables.
- Option to add privacy panels.

**Bluetooth dongle required for bluetooth functionality. Dongle sold separately.*

BENCHING

- Ascend Benching offers an ergonomic combination of height adjustability and technology for open, collaborative spaces.
- The independent worksurface allow you to choose your preferred height while balancing collaboration and privacy.
- Includes power and data distribution Beam system.
- With its dual-station design, the Ascend Benching with adjustable height promotes interaction between users. Ideal for departments with a creative approach.

CONFERENCE TABLE

The conference table with adjustable height is the perfect piece of equipment to increase the charm of your office interior. It can be integrated with functions that make it a dynamic element for users in many ways.

G-CONNECT CREDENZA WITH ASCEND

Furniture color may vary from renderings.

Take the functionality of your workspace to the next level! An additional storage area allows you to improve the overall appearance of your office, creating a more orderly environment. Give a unique minimalist touch to your open spaces or private offices.

Easily cover your needs for movement, space and storage with the additional structures from our Ascend collection. Its adjustable height worksurface allows you to minimize the stress caused by maintaining the same posture for long periods of time, while improving your health and increasing your productivity.

ANTI-COLLISION

Accidents happen in a blink of an eye. Ascend integrates an anti-collision sensor designed specifically to avoid them! It detects any resistance while traveling up or down and automatically stops its movement.

CONFERENCE TABLES

MODULAR

Furniture color may vary from renderings.

The collection of Conference Tables promotes adaptability to the growth of your company, creating personal and collaborative spaces that easily adjust to your needs, providing an original design that favors concentration and productivity.

BOAT SHAPE TABLE

Our boat shape conference table is a practical option. Its shape provides a wider working surface in the center and adapts to user needs.

OVAL TABLE

Our oval table is perfect for meetings with collaborators. The integration of straight and curved shapes makes the boardroom look like a professional, modern space.

RECTANGLE TABLE

As you need to expand the distribution of users, rectangular tables allow changes to be made with ease.

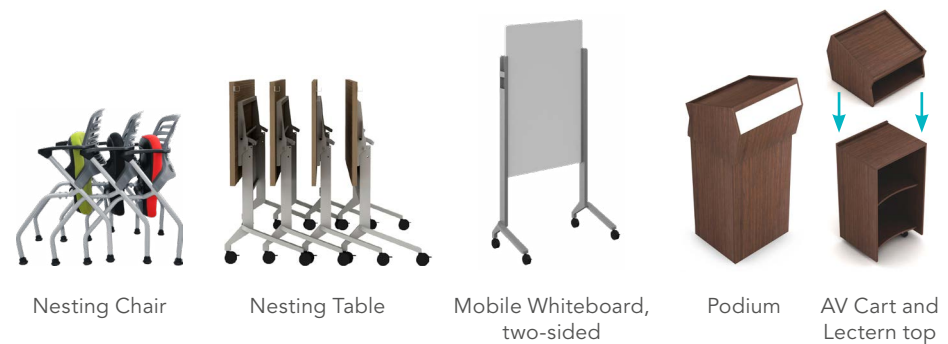

Furniture color may vary from renderings.
