FILE CABINETS & PEDESTALS

CONCORD

The CONCORD file cabinets instantly adapt to existing furniture in your office. They're perfect for collaborative or private spaces, and add the perfect complement to solve storage problems. Maximum resistance and practicality.

URBAN

Much more than auxiliary furniture. The elements from the URBAN line are of enormous value especially in areas where you work with large amounts of documentation and manuals.

GLOBAL

Get wide storage space without sacrificing aesthetics. Our pedestals let you keep the clutter and accumulation of documents at bay while adding structure to your configuration.

NOVA

Organize and distribute the space in your office. Regardless of the dimensions of your workspace, optimizing each area is always an advantage. With the integration of our resistant NOVA metal filing cabinets, you ensure a workstation where order and productivity predominate.

CYBER

Revolutionize the way you operate and store your work accessories with our CYBER filing cabinets. In an office environment where speed is often an important factor, keeping documents tidy and secure is a great advantage.

PANEL SYSTEMS

Improve the space and distribution of your office. Store your documents, hard drives, personal items and folders under lock and key inside our pedestals. The compartments allow you to classify the work equipment in a personalized way. Its design and dimensions make it perfect to integrate in creative configurations.

TOWERS

With each element from our line of modular systems, your office acquires the ability to be configured according to preferences from the staff. Designed with the versatility your working day requires, our bookcases are quick and practical solutions to your storage issues.

CABINETS

Reform the way in which your office is organized and centralize storage for documents, files, accessories, or personal objects. Our cabinets harmonize with the rest of your furniture, favoring decoration and functionality in specific rooms.

Select the ideal finish to fully represent the personality of your company.

SHELVES

Keeping workstations tidy seems like a difficult task, but with GEBESA's shelves, you can discover a new level of organization. Eliminate distractors, boost your performance and reduce work stress. Save time by keeping everything organized, in sight and at your fingertips.

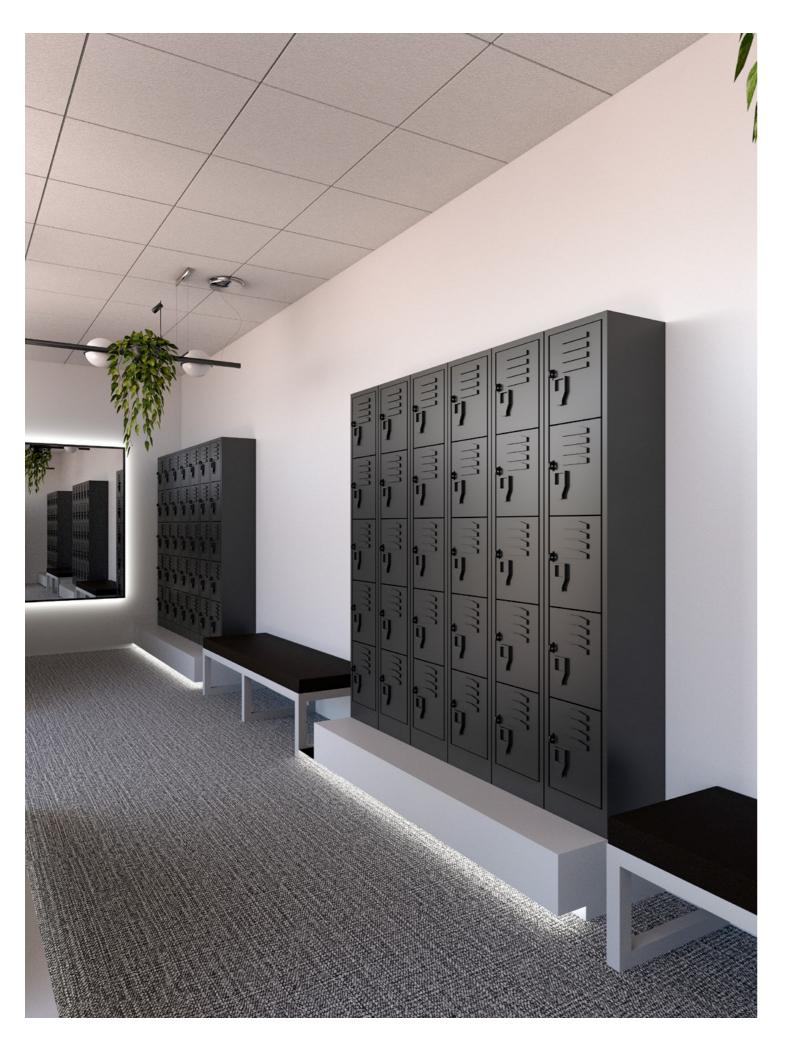

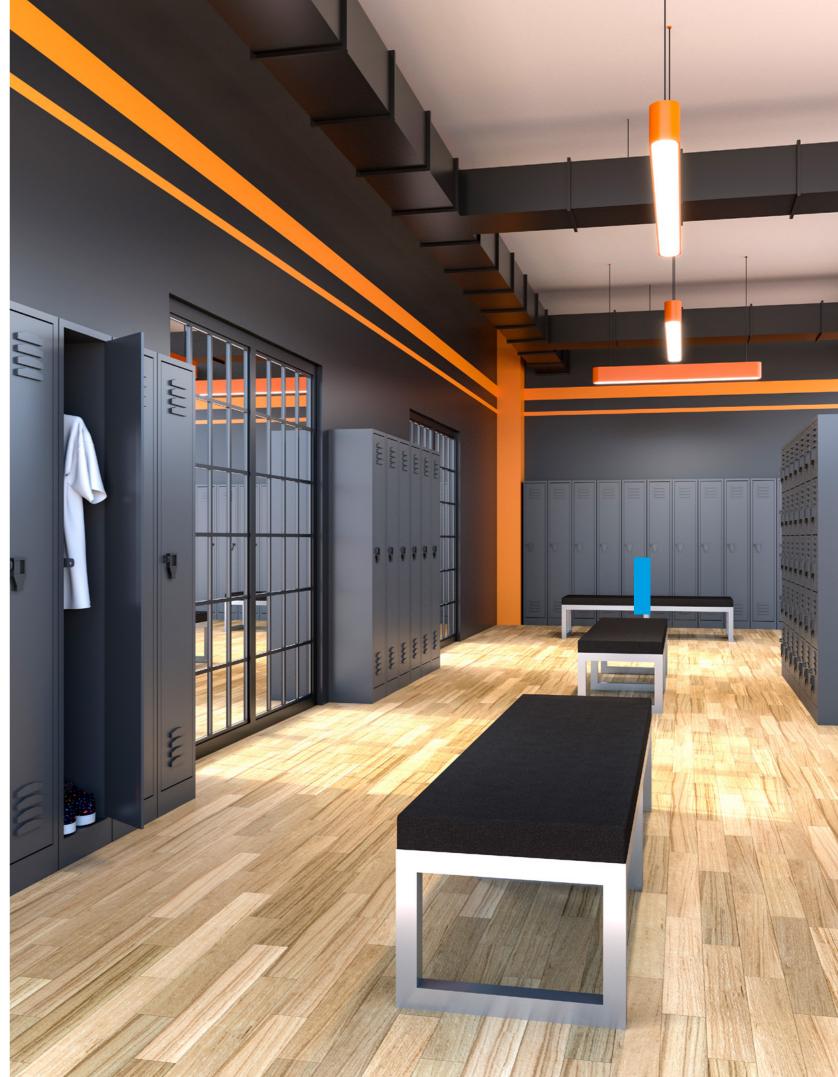

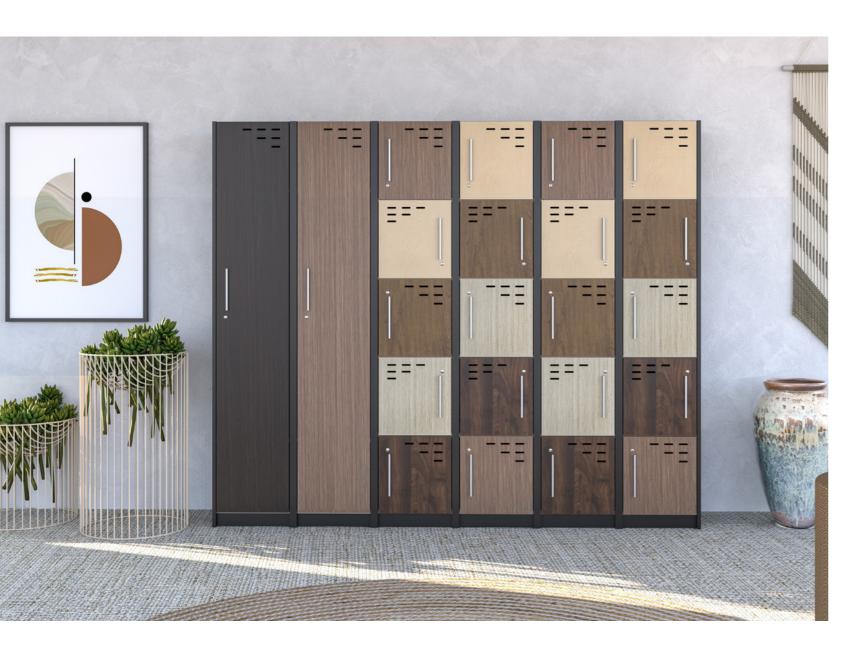

LOCKERS

Consolidate the success of your company with practical storage solutions. Adapt the locker that best integrates with the aesthetics and needs of your company. Leave behind the days when finding documents was an investment of time and effort. With spacious interiors and a variety of finishes on their doors, they multiply the feeling of comfort, reduce chaos, and increase productivity.

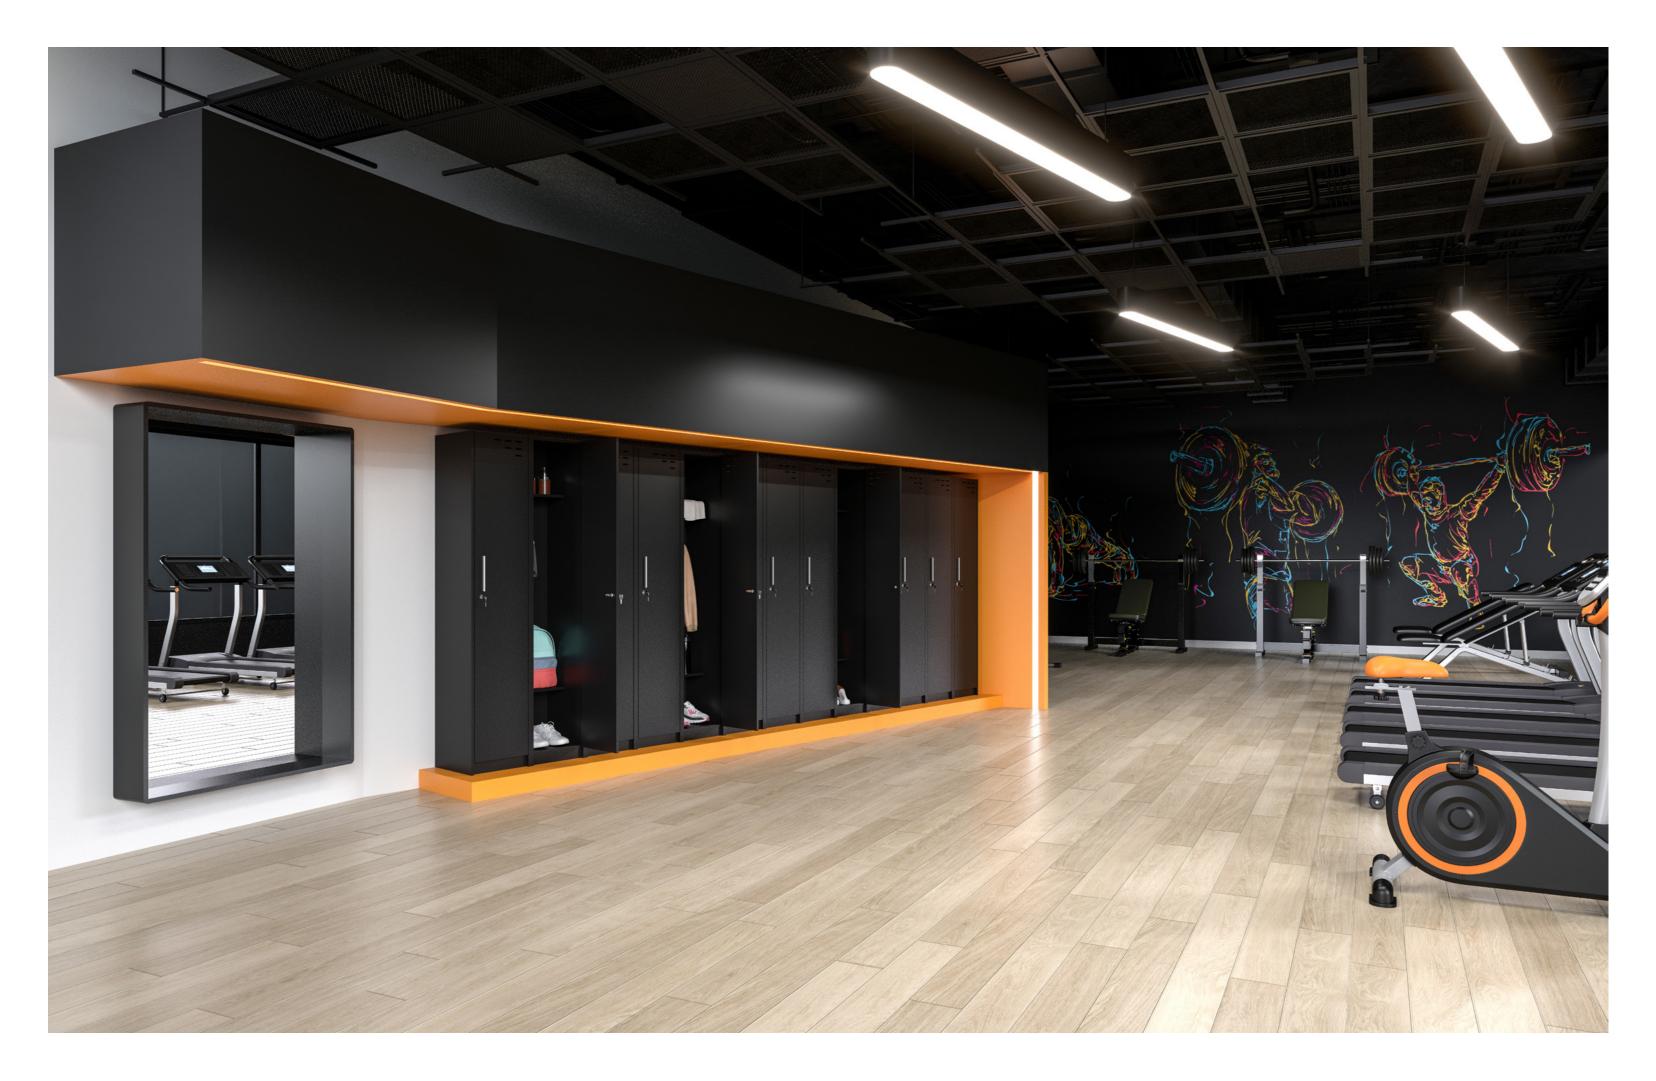

LAMINATE LOCKERS

Consolidate the success of your company with practical storage solutions. Adapt the locker that best integrates with the aesthetics and needs of your company. Leave behind the days when finding documents was an investment of time and effort. With spacious interiors and a variety of finishes on their doors, they multiply the feeling of comfort, reduce chaos, and increase productivity.

FABRIC DIRECTION *See page 38 for Fabric Direction Application Guidelines.

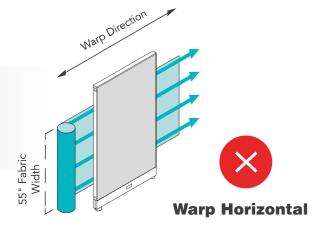

Furniture color may vary from images.

GUIDELINES

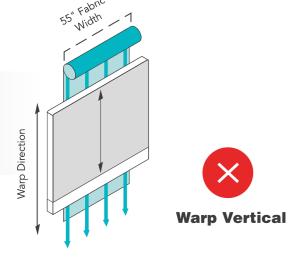

Fabrics that are patterned, textured, or have sheen can have a distinctly different appearance if applied in different directions on chairs or panels. Because of these differences, as well as width limits to how some fabrics can be applied to Gebesa products*, it is important to understand fabric applications.

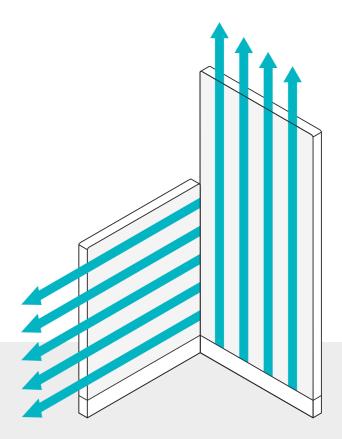

Fabrics cannot be applied warp horizontal/railroaded on panels with a height greater than 48 inches because panel height is greater than fabric width.

Fabrics cannot be applied warp vertical on panels with a width greater than 48 inches because panel width is greater than fabric width.

Gebesa is not responsible for charges associated with replacement or reupholstering of products due to incorrect fabric specifications.

The combination of tall panels (height of 55 inches or more with warp vertical/off the roll) with short panels (height of 45 inches or less with warp horizontal) results in fabric patterns running in opposite directions.

The following options are available:

- Use solid or non-directional fabrics.
 (Various Gebesa fabrics are noted as "non-directional.")
- Specify warp vertical/off the roll application for fabrics that are standard warp horizontal.

If you require warp vertical and it is not standard for your fabric choice, you must specify the warp vertical option on each line of the order.
